|--|------------|
| Preface | ii |
| Summary | iii |
| 1 Introduction | 1 |
| 1.1 Motivation of the Interactive Data Visualizer | 1 |
| 1.2 Objective of the Project | 1 |
| 1.3 Outline of the Project | 1 |
| 2 Problem Analysis | 2 |
| 2.1 Main Goal | 2 |
| 2.2 Usage of Related Libraries | 2 |
| 2.3 Processed Type of Data | 2 |
| 2.4 Nested Filtering on Data | 2 |
| 2.5 Apply Alternative Functions and Algorithms on Data | 2 |
| 2.6 Computation Intensity and Thumbnails | 3 |
| 2.7 Possibility of Extendibility | 3 |
| 2.8 Library Study | 3 |
| 3 Visualising Data | 4 |
| 3.1 Usage of the Dash library | 4 |
| 3.1.1 Visualising 2D-Data in Graphs and Tables | 4 |
| 3.1.2 Visualising 3D-Data in Graphs and Tables | 4 |
| 3.2 Data Selection in the GUI | 4 |
| 3.2.1 Nested Data Selection | 4 |
| 3.2.2 Re-Plotting Selected Data | 4 |
| 3.3 Thumbnails | 4 |
| 4 Results | 5 |
| 4.1 Final Product | 5 |
| 4.2 Efficiency | 5 |
| 4.2.1 Lazy Loading of Data | 5 |
| 4.2.2 Caching Plotted Graphs | 5 |
| 4.3 User-defined Functions and Algorithms | 5 |
| 5 Discussion | 6 |
| 5.1 User Experience | 6 |
| 5.2 Performance | 6 |
| 6 Product Recommendations and Conclusions | 7 |
| 6.1 Next Steps | 7 |
| 6.1.1 Web-app | 7 |
| 6.2 Reflection on Teamwork | 7 |
| 6.3 Conclusion | 7 |
| References | 8 |
| A Appendix | 9 |
| A.1 Non-functional Requirements | 9 |
| A.2 MoSCoW Method | 9 |
| A.2.1 Must Have | 9 |
| A.2.2 Should Have | 10 |
| A.2.3 Could Have | 10 |
| A.2.4 Won't Have | 10 |
